

LX22G-Line Laser

Cross Line Laser with Plumb Spot

Green Beam Cross Line & Dot Laser

Kit includes:

- LX22 Laser
- Magnetic Bracket
- Target Plate
- Hard Carry Case
- Batteries

The LX22G is one of the most popular GREEN beam lasers in our range. This is due to the highly visible laser beam, and simple and effective design and build quality.

The LX22G offers exceptional performance with a super wide horizontal, and vertical laser beam range combined with up/down plumb spot for all types of interior levelling. Now supplied with a heavy duty hard carry case for added protection and durability.
