How to order spare knives:

Locate the tool number you require spare knives for in the left hand column of the grid. Each tool comes with main knives (z) and most are supplied with scorers (v).

The figure in column z tells you how many knives the tool requires and the figure in column v tells you how many scorers the tool requires.

Use the order quantity figure and product reference code to order the knives and scorers (if required) for each tool.

Please note:

Some knives are sold in boxes of ten (denoted by /10 at the end of the product reference). Prices shown are per knife or per pack of 10.
